List of Approved COVID-Exclusive Facilities

Since the onset of the COVID-19 pandemic, many long-term care facilities have been challenged by their structural and staffing capabilities to provide the specialized care necessary for residents who have tested positive for COVID-19. In an effort to provide alternative locations for residents with COVID-19, several long-term care facilities in Idaho have been approved by the Department of Health and Welfare to operate as COVID-exclusive facilities or to operate a unit within the facility as a COVID-exclusive unit.

Below is the list of skilled nursing facilities and assisted living facilities that have been approved as COVID-exclusive facilities or have been approved to operate a COVID-exclusive unit within the facility. The Coronavirus Long-term Care Strike Team continues to actively recruit for additional COVID-exclusive facilities, particularly in northern and eastern Idaho and will add facilities to this list as they are approved.

Skilled Nursing Facilities

Skilled nursing facilities are in-patient treatment and rehabilitation centers featuring licensed nurses and other medical professionals.
