

List of Approved COVID-Exclusive Facilities

Since the onset of the COVID-19 pandemic, many long-term care facilities have been challenged by their structural and staffing capabilities to provide the specialized care necessary for residents who have tested positive for COVID-19. In an effort to provide alternative locations for residents with COVID-19, several long-term care facilities in Idaho have been approved by the Department of Health and Welfare to operate as COVID-exclusive facilities or to operate a unit within the facility as a COVID-exclusive unit.

Below is the list of skilled nursing facilities and assisted living facilities that have been approved as COVID-exclusive facilities or have been approved to operate a COVID-exclusive unit within the facility. The Coronavirus Long-term Care Strike Team continues to actively recruit for additional COVID-exclusive facilities, particularly in northern and eastern Idaho and will add facilities to this list as they are approved.

Skilled Nursing Facilities

Skilled nursing facilities are in-patient treatment and rehabilitation centers featuring licensed nurses and other medical professionals.

Skilled Nursing Facilities approved as COVID-exclusive facilities:

Facility	Address	Phone Number
Shaw Mountain of Cascadia	909 E. Reserve St., Boise, ID 83712	Facility: 208-343-7717
Arbor Valley of Cascadia	8211 W. Ustick, Boise, ID 83704	Facility: 208-375-3700

Assisted Living Facilities

Assisted living facilities provide housing and limited care that is designed for vulnerable adults who need some assistance with daily activities but do not require care in a nursing home.

Due to a lack of referrals, there are currently no assisted living facilities operating as a COVID-exclusive facility or operating a COVID-exclusive unit within the facility.
