

Weekly Summary of Long-term Care Facilities With Residents or Staff Positive for COVID-19

Report posted Friday, August 28, 2020

As of August 28, 2020, there have been:

- Overall, 154 outbreaks with 2090 total cases:
 - 54 facilities have resolved outbreaks.
 - 23 of the 54 resolved outbreaks included only 1 resident or staff member reported with COVID-19, and there was no further spread in the facility.
- 196 COVID-19-related deaths associated with 50 facilities.
- Currently, 1683 people reported with COVID-19 associated with 100 long-term care facilities.

For purposes of these data, the following definitions apply:

Long-term care facility means a nursing home, assisted living facility, or intermediate care facility. There are just over 400 long-term care facilities in Idaho.

Outbreak means at least one lab-confirmed COVID-19-positive case associated with a facility.

Probable Case means the person had symptoms of COVID-19 and was exposed to someone with a lab-confirmed case of COVID-19, but there is no positive laboratory test confirming COVID-19 infection.

Resolved means that more than 28 days have passed (2 incubation periods) without any additional cases associated with the facility.

The table on the following page provides a list of long-term care facilities with current or resolved COVID-19 cases. “Facilities with Ongoing Outbreaks” are listed in the order in which the outbreaks were reported to the Division of Public Health. “Facilities with Resolved Outbreaks” are listed in the order in which the outbreaks were declared resolved.

NOTE: Edgewood Castle Hills, Edgewood Spring Creek Eagle Island, and Homestead St. Anthony were all reported to the state in error. None of the three facilities are having an outbreak, and all have been removed from the list.

Long-term Care Facilities with Current or Resolved COVID-19 Cases
