

A detailed electron micrograph of a virus particle, likely SARS-CoV-2, showing its characteristic spherical shape and surface spikes. The image is rendered in shades of teal and blue, with a dark blue diagonal line separating it from the white text area on the right.

COVID-19 Vaccine Planning

Sarah Leeds, Program Manager

Idaho Immunization Program

COVID-19 Vaccine Advisory Committee

October 23, 2020

IDAHO DEPARTMENT OF
HEALTH & WELFARE

Idaho's COVID-19 Vaccine Planning

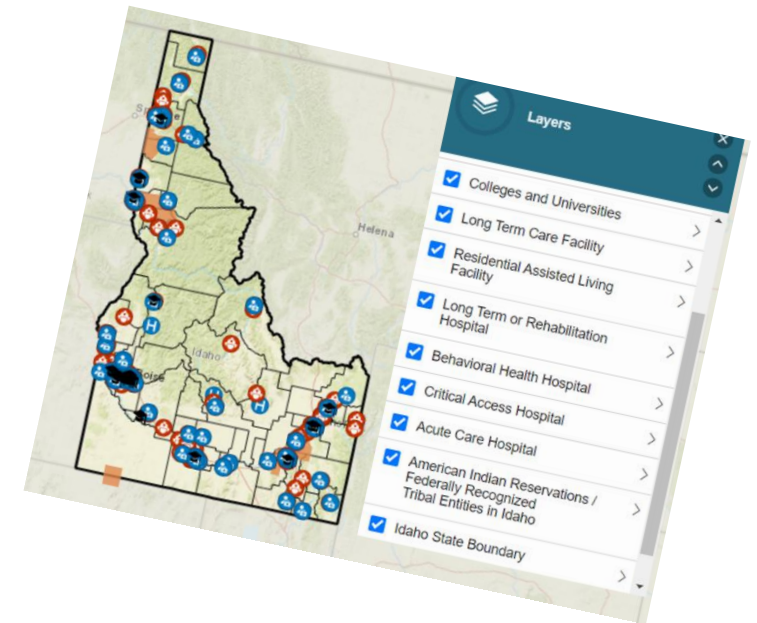

- COVID-19 vaccine planning began in Spring 2020
 - CDC planning with jurisdictions
 - Idaho COVID-19 Vaccine Task Force – first meeting June 29th
- Adult influenza focus added in June
 - Supplemental funding, late season adult doses; new contactors/funded partners
- Arrival of CDC Playbook – Sept 16th
 - Interim plan submitted October 16th
 - Revisions, feedback ongoing as new information emerges
- COVID-19 Vaccine Advisory Committee convened in October

The image shows a Gantt chart with a grid. The vertical axis lists various tasks and categories, and the horizontal axis shows months from January to December. Colored bars indicate the duration of different activities.

- Provider Recruitment & Enrollment
- Vaccination Capacity Assessment
- Priority Population Subgroups Identification
- Ancillary Supplies Assessment
- Data Collection Preparation

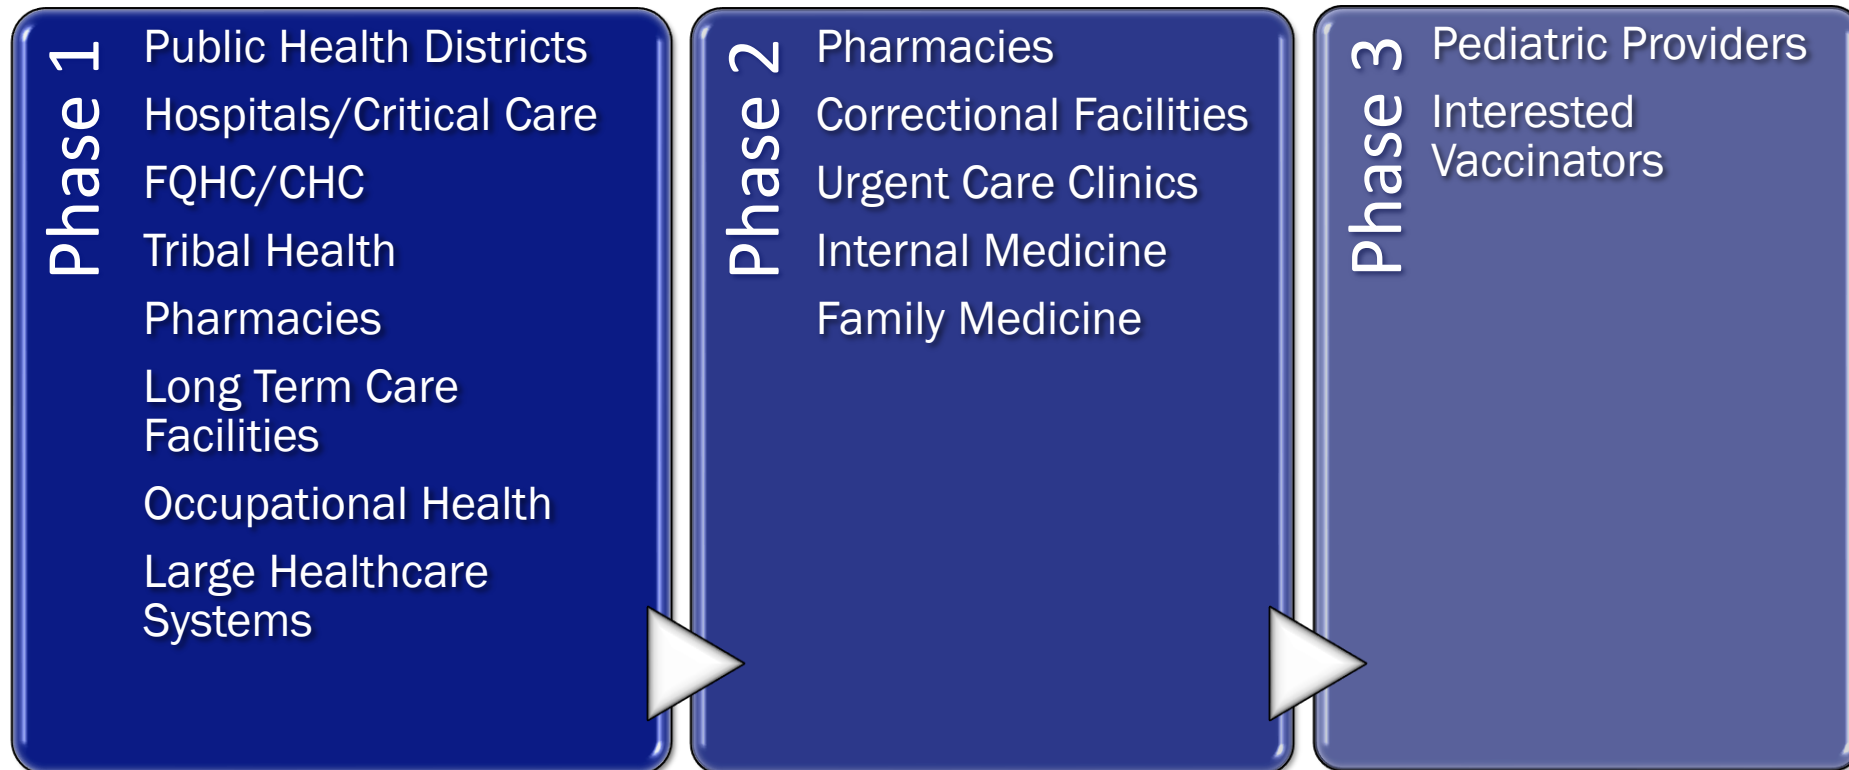

CDC COVID-19 Vaccination Program

Provider Agreement

- Recruit and enroll based on priority population, access, capacity, and geographic location
- Enroll organizations prior to vaccine availability, based on each phase and capacity needs
- Use available data to recruit organizations to ensure equitable vaccine access throughout the state

Phased Enrollment

The organization types listed above represent an initial phased recruitment plan.

Enrollment Process

The last week of October:

- Enrollment communication will be sent to PHD, Hospitals, Tribal partners, FQHCs/CHCs, and participating pharmacies
- Virtual meeting for sharing information, discussion, and questions
