

Weekly Summary of Long-term Care Facilities With Residents or Staff Positive for COVID-19

Report posted Friday, October 16, 2020

As of October 16, 2020, there have been:

- Overall, 193 outbreaks with 3095 total cases:
 - 103 facilities have resolved outbreaks.
 - 32 of the 103 resolved outbreaks included only 1 resident or staff member reported with COVID-19, and there was no further spread in the facility.
- 290 COVID-19-related deaths associated with 69 facilities.
- Currently, 1812 people reported with COVID-19 associated with 90 long-term care facilities.

For purposes of these data, the following definitions apply:

Long-term care facility means a nursing home, assisted living facility, or intermediate care facility. There are just over 400 long-term care facilities in Idaho.

Outbreak means at least one lab-confirmed COVID-19-positive case associated with a facility.

Probable Case means the person 1) tested positive for SARS-CoV-2 infection using an antigen test, 2) they have a clinically compatible illness and epidemiologic risk for infection, or 3) their death certificate lists COVID-19 or SARS-CoV-2 as an underlying cause of death or significant condition contributing to death, without confirmation using a molecular amplification test

Resolved means that more than 28 days have passed (2 incubation periods) without any additional cases associated with the facility.

The table on the following page provides a list of long-term care facilities with current or resolved COVID-19 cases. “Facilities with Ongoing Outbreaks” are listed in the order in which the outbreaks were reported to the Division of Public Health. “Facilities with Resolved Outbreaks” are listed in the order in which the outbreaks were declared resolved.

Long-term Care Facilities with Current or Resolved COVID-19 Cases
