Booster			Pfizer-BioNTech 13,650			Expected Pfizer-BioNTech 1,950		

**Vaccine Ordering and Distribution Cadence (beginning Jan 4<sup>th</sup>)**

- Tuesday: Anticipated allocation in Tiberius (prior to dose transfer to Pharmacy Partnership for LTCF)
- Wednesday: Allocation validation (after doses transferred and allocation set)
- Thursday: Ordering opens for allocation of primary doses
- Thursday-Sunday: Planning of doses distribution by PHD determined
- Sunday-Monday: Orders placed for allocation
- Sunday: Ordering opens for booster doses
- Monday-Thursday: Vaccine delivered

**Notes**

The federal Pharmacy Partnership for Long-term Care Facilities was activated by Idaho on December 13<sup>th</sup>. Each week for four weeks, 7,800 doses of Pfizer-BioNTech COVID-19 vaccine allocated to Idaho will be transferred to the Partnership. As of January 8<sup>th</sup>, 31,200 doses have been transferred. An additional 1,950 doses were transferred to cover some facilities who missed the deadline, wanted to enroll, and the pharmacy agreed to vaccinate the staff and residents.

- 19,450 Primary Doses Weekly
  - 9,700 doses of Moderna weekly
  - 9,750 doses of Pfizer-BioNTech weekly
- Reserved “second doses” also arrive in this cadence
  - This may change, as of news stories this morning
  - All doses may be pushed out together, rather than reserving some vaccine for second doses
