000. LEGAL AUTHORITY.

Rulemaking functions relating to public health are vested by the Idaho Legislature in the Idaho Board of Health and Welfare under [Section 56-1003\(1\)](#), Idaho Code. (12-11-20)T

001. TITLE, SCOPE, PURPOSE, AND APPLICABILITY.

01. Title. These rules are titled IDAPA 16.02.09, “Crisis Standards of Care for Healthcare Entities.” (12-11-20)T

02. Scope. These rules contain the standards and processes for the activation and deactivation of crisis standards of care for healthcare entities. Nothing in these rules prevents a healthcare entity from implementing their own resource allocation protocols or utilizing the crisis standards of care guidance documents if emergent circumstances require that the healthcare entity allocate scarce resources and these rules have not been activated. (12-11-20)T

03. Purpose. Crisis standards of care will be activated when a catastrophic disaster overwhelms usual health and medical capabilities and capacities, resulting in an inability of healthcare entities to provide the usual standard of care to patients. The activation of this plan triggers notification to healthcare entities and the seven (7) public health districts that crisis standards of care has been activated. (12-11-20)T

04. Applicability. This chapter of rules may be applied generally throughout the state or may be limited as to times, places, circumstances, or conditions to permit variation under [Section 56-1003\(2\)](#), Idaho Code. (12-11-20)T
