VACCINATION
IS PART OF A HEALTHY LIFESTYLE

Everyone age **5 years and older** is currently eligible for a COVID-19 vaccine

COVID-19 VACCINES ARE AVAILABLE AT NO COST

Private health insurance or Medicaid will cover the cost of the COVID-19 vaccine, but if you do not have Medicaid or other insurance, you and your family can still be vaccinated! Your healthcare provider may ask for an insurance card to charge the vaccine administration fee to the insurance company, but no bills should be sent to you. If you do not have an insurance card, you can still receive the vaccine at no cost.

COVID-19 VACCINES ARE SAFE AND EFFECTIVE

The safety of COVID-19 vaccines is very important. COVID-19 vaccines were tested and reviewed in clinical trials among tens of thousands of people. Safety of the vaccine is being monitored by multiple agencies including the Food and Drug Administration (FDA) and the Centers for Disease Control and Prevention (CDC) and the vaccines have now been safely given to hundreds of millions of Americans. The available vaccines in the U.S. are effective at preventing severe disease and death from COVID-19.

COVID-19 VACCINE IS WIDELY AVAILABLE

To find more information about vaccine locations, the vaccine brands available, and walk-in or scheduling details, use the Vaccine Finder at vaccines.gov/search or visit covidvaccine.idaho.gov. You can text your Zip code to 438829 (GETVAX) to have vaccine locations in your area sent to you. For Spanish, text your Zip code to 822862 (VACUNA). You can also contact the national call center at 1-800-232-0233, or ask your doctor.
